David Hodge, MD, Chairman		11 - 0 - 0 - 6 (Neves / Soares)

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
#8 Standing Reports	<u>Finance</u>	Motion: Approve Standing Reports
Finance Report William Gregor, CFO	Financial Statements as of May 31, 2018:	11-0-0-6 (Neves / Frye)
William Gregor, er o	Total current assets were approximately \$163M; total current	
	liabilities were approximately \$115.5M. Current ratio is 1.41. TNE as	
	of May 31, 2018 was approximately \$58.5M, which is approximately	
	437% of the minimum DMHC required TNE amount.	
	Total premium capitation income recorded was \$1.087B which is	
	\$43.8M above budgeted amounts primarily due to capitation rates	
	and taxes being higher than budgeted. Medical Costs expense and	
	taxes are higher than budgeted for the same reasons.	
	All other expense line items are in line or below with current year budget. Total net income for the first 11 months of the fiscal year is approximately \$8.9M, which is approximately \$1.2M more than budgeted.	
	Medical Management	
Medical Management P. Marabella, MD, CMO	Appeals and Grievances Report	
	Dr. Marabella presented the Appeals and Grievances Dashboard	
	through May 2018.	
	Overall, variation is noted in the number of Grievances received/resolved by grievance type during the months of April and May 2018 compared to previous months.	

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
AGENDATIENT/ PRESENTER	 Total number of Grievances Resolved increased in April and decreased in May. The number of Quality of Service Grievances and Quality of Care Grievances has remained stable. An increase is noted in Exempt grievances which is in part related to the EHS transition. The inclusion of Transportation related grievances this year has also contributed to the increase in the number of Exempt Grievances. 	ACTION TAKEN
	 However, Year -to-date Grievance Rates are lower than last year's average. 	
	Total number of Appeals Received/Resolved has demonstrated an increasing trend throughout the year so far.	
	 The increase is noted primarily in the "Other" category related to advanced imaging and allergy treatment requests. It is anticipated that provider education will reduce these numbers over time. 	
	Key Indicator Report	
	Dr. Marabella presented the Key Indicator report through April 2018.	
	 Membership has remained consistent. Admits remain comparable to previous months. ER utilization has also remained steady. Bed Days PTMPY have increased slightly. This may be related to the EHS transition causing system disruptions. Turn-around Time (TAT) Compliance has several metrics below goal of 100%, but above 90%. EHS transition resulted in providers sending the wrong prior authorization form impacting case prioritization and ultimately turn-around compliance rates. This has been addressed. 	

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
	 CCS and OB rates remain consistent. Perinatal Case Management outreach attempts and engagement rates have increased. Integrated Case Management outreach attempts are lower due to a more targeted member identification process resulting in a higher engagement rate. 	
	QIUM Quarterly Summary Report	
	Dr. Marabella provided the QI/UM Qtr. 2, 2018 update. One QI/UM meeting was held in Quarter 2, on May 17, 2018.	
	The following guiding and general documents were approved:	
	 2017 Cultural & Linguistics Annual Evaluation & Summary 2018 Cultural & Linguistics Program Description & Summary 2018 Cultural & Linguistics Work Plan & Summary Language Assistance Program Report 2017 Health Education Annual Evaluation & Summary 2018 Health Education Program Description 2018 Health Education Work Plan Performance Improvement Project Updates (CIS-3 Immunization Improvement PIP, PPC Postpartum Visit PIP and MPM Monitoring Persistent Medications PDSA) Pharmacy Formulary (Recommended Drug List) & Provider Updates 	
	Reports reviewed included the following Quality Improvement Reports: Appeals and Grievances Dashboard & Quarter 1 Member Report, ED Drug Report, Initial Health Assessment, and Provider Wait	

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
	Times. Other QI reports reviewed and approved included CCS Trending and the Potential Quality Issues (PQI) Report.	
	The Utilization Management & Case Management reports reviewed included the Key Indicator Report, and the Case Management & TCM Report. Other UM reports reviewed included Concurrent Review Quarterly for Q1, and Concurrent Review IRR Report.	
	Pharmacy reports were reviewed, which included Operations Metrics, Top Medication Prior Authorization Requests, and quarterly Formulary changes.	
	 HEDIS® Activity: In Quarter 2, continuing HEDIS® Performance Improvement Projects (PIPs) consisting of:	
	Bronchitis (AAB) – Madera County Quarter 1 2018 Kaiser reports were reviewed without any significant findings. Credentialing Sub-Committee Quarterly Report	

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
	The Credentialing Sub-Committee met on May 17,2018. Routine credentialing and re-credentialing reports were reviewed for both delegated and non-delegated entities. Reports covering Q4 2017 were reviewed for delegated entities, Q1 2018 reports were reviewed for MHN and Health Net. The Credentialing Sub-Committee 2018 Charter was reviewed and approved without changes. The Q1 2018 Credentialing report was reviewed with one case of denied network admittance. No significant cases were identified on these reports. Peer Review Sub-Committee Quarterly Report The Peer Review Sub-Committee Summary Reports for Q1 2018 were reviewed for approval. There were no significant cases to report. The 2018 Peer Review Sub-Committee Charter was reviewed and approved without changes. The Q1 2018 Peer Count Report was presented and there was one case closed and cleared. There was one case pending closure for Corrective Action Plan compliance. There were two cases pended for further information. No significant Quality of Care issues were noted. Follow up will be initiated to obtain additional information on tabled cases and ongoing monitoring and reporting will continue.	
• Operations J. Nkansah, COO	Operations Report Jeff Nkansah presented the Operations Report.	

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS There were no significant fluctuations or changes with IT Communications and Systems. The Overall Network Health Score increased to 93%, up from 92% in May 2018. No significant activity has occurred in the area of Fraud, Waste, and Abuse. There has been a decrease in active cases, from 24 down to 16. Fraud, Waste, and Abuse activity, effective 7/1/18, will transition from the Operations Report to the Compliance Report. To date, there have been 17 Privacy and Security cases. There have been no high-risk cases reported since the Commission last met in May.	ACTION TAKEN
	Provider Network Activities include the closure of Coalinga Regional Medical Center, which will impact our hospital count. CVH has passed DHCS's Annual Network Certification for 2018. Alternative Access Requests were approved and there were no deficiencies noted. Increase in counts for PCP, Clinic, Specialist and Ancillary is attributed to both contracting efforts and data integrity efforts. Operating and complying with the new state and federal regulations ensuring contracted network providers are enrolled in the Med-Cal program is currently a significant issue of concern. Claims Processing of Behavioral Health Claims have not met timely payment standard as reported by the behavior health team. A Corrective Action Plan (CAP) was requested to address the concern.	

AGENDA ITEM / PRESENTER	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
	Medical Provider Disputes did not meet goal for Quarter 1 2018. In	
	addition, PPG 2 did not meet goal for Quarter 1 2018. These areas are	
	a concern and are continuing to be monitored.	
	Executive Report	
• Executive Report		
G. Hund, CEO	Membership increased in the month of June. Market share is	
	currently at 71.03%. Numbers remain consistent.	
#14 Final Comments from		
Commission Members and Staff		
#15 Announcements		
#16 Public Comment	None.	
#17 Adjourn	The meeting was adjourned at 2:38 pm	
	The next Commission meeting is scheduled for September 20, 2018 in	
	Fresno County.

Report	an increase in quality of service and exempt grievances in March.	6-0-0-2
(Attachment J-L)	The number of Quality of Care Grievances has remained comparable to previous months and quarters.	
Action	The increase in Exempt grievances is primarily related to the EHS transition.	
Patrick Marabella, M.D, Chair	• The inclusion of Transportation related grievances in quarter 1, an expanded benefit in the past several months, has also contributed to the increased volumes.	
	The total number of Appeals received and resolved in quarter 1 and particularly in March is noted to have	
	increased. An increase is noted in the "Other" category and is primarily related to a new prior authorization process	
	for advanced imaging studies and allergy treatments. It is anticipated these numbers will decrease with provider	
	education.	
	Inter-rater Reliability results were also reviewed with good compliance.

#3 QI Business - ER Drug Report (Attachment N) Action Patrick Marabella, M.D, Chair	This report provides a summary of monitoring activities on a semi-annual basis associated with the provision of prescription medications to members post Emergency Room visit as required by state regulations. The goal of 90% compliance was met overall for all counties in Quarter 2 and Quarter 3 of 2017. The delay in reporting is due to ER claims lag. The committee approved the recommendation to reduce the frequency of monitoring to once per year continuing with current sample sizes.	Motion: Approve ER Drug Report (Lee/Foster) 6-0-0-2 Motion: Approve Potential
#3 QI Business - Potential Quality Issues Report Qtr. 1 (Attachment O) Action Patrick Marabella, M.D, Chair	This report provides a summary of Potential Quality Issues (PQIs) identified during the reporting period that may result in substantial harm to a CVH member. PQI reviews may be initiated by a member, non-member or peer review activities. Peer review activities include cases with a severity code level of III or IV or any case the CVH CMO requests to be forwarded to Peer Review. Data was reviewed for all case types including the follow up actions taken when indicated.	Quality Issues Report Qtr. 1 (Hodge/Cardona) 6-0-0-2
#3 QI Business - IHA Quarterly Audit Report (Attachment P) Action Patrick Marabella, M.D, Chair	The Department of Health Care Services (DHCS) requires completion of the Initial Health Assessment (IHA) for new Medi-Cal members within 120 days of enrollment. A multi-pronged approach to monitoring is performed and includes the following: Medical Record Review (MRR) via onsite provider audits Monitoring of claims and encounters Member outreach The current report covers Quarter 4, 2017. Of the total adult records reviewed during onsite visits, 84% were found compliant, while of the total pediatric records 100% were found in compliance in the fourth quarter. Overall, 93% of the records included in the review were compliant with IHA standards. Claims and encounters monitoring for the first half of 2017 revealed lower compliance rates compared to record review, however, coding enhancements continue when opportunities are found. Overall compliance with member outreach was good.	Motion: Approve IHA Quarterly Audit Report (Lee/Hodge) 6-0-0-2 Motion: Approve Provider
#3 QI Business - Provider Office Wait Time Qtr. 1 2018 (Attachment Q) Action Patrick Marabella, M.D,	Health plans are required to monitor waiting times in providers' offices to validate timely access to care and services. This report provides a summary that focuses on Quarter 1 2018 monitoring for Fresno, Kings and Madera Counties. All counties are within the 30-minute office wait time threshold for both mean and median metrics. Outliers are tracked and results of monitoring have been reported back to the participating providers. Monitoring and analysis will continue in 2018 to identify opportunities for improvement associated with specific providers.	Office Wait Time Qtr. 1 (Foster/Cardona) 6-0-0-2

	The 2018 Work Plan activities will continue with an emphasis in the following areas:	
	• Creating cultural awareness through education and consultation with an emphasis on non-discrimination.	
	Oversight and consultation for operational activities.	
	Enhance and expand on training for staff and providers inclusive of disparity reduction efforts.	

AGENDA ITEM/	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
PRESENTER	Dr. Marabella presented the Health Education 2017 Work Plan Annual Evaluation, the 2018 Program Description, and the 2018 Work Plan.	
	Overall, seven of the eleven Program Initiatives were completed in 2017. Four of the initiatives were partially met. Some sub-elements were not completed.	
	The seven initiatives that were fully met are: 1) Perinatal Initiative 2) Community Health Education 3) Member Newsletter Initiative 4) Public Policy Committee 5) Tobacco Cessation Program 6) Compliance: Staying Healthy Assessment, Oversight and Reporting 7) Materials Update, Development & Inventory.	
	The four initiatives partially met are: 1) Digital Education Programs (DHCS did not approve the Lifeline program) 2) Member Engagement for Improved Health (Member contact information was not current) 3) Promotores Health Network (Materials were delayed) 4) Obesity Prevention Initiative (No member requests and no direct promotion completed) Follow up is planned for these areas in 2018.	
	Changes to the 2018 Program Description include: 1) Replaced Pregnancy Matters° with new Healthy Pregnancy Program 2) California Smokers' Helpline: Removed detailed description 3) Nurse Advise Line: Added description of Audio Library 4) Digital Health Education: Revised description of T2X Program and added MyStrength, a website and mobile application to help members manage depression, anxiety, stress, substance use and pain management. 5) Health Promotion Incentive Programs: Added description of Incentive Program 6) Know Your Numbers: Added description of purpose and events. 7) List of Available Resources: Added the MyStrength 8) Roles & Responsibilities was updated 9) Department Listing: Added MemberConnections 10) Other minor edits and updates were completed throughout the document.	

AGENDA ITEM/	MOTIONS / MAJOR DISCUSSIONS	ACTION TAKEN
PRESENTER		
	The 2018 Work Plan initiatives will continue with the following enhancements: 1) Obesity Prevention - a. Identify high-risk members and promote program/resources. 2) Smoking Cessation - California Smokers' Helpline: a. Educate and encourage providers to use the e-referral into the Helpline in order to track enrollment status. 3) Well Care & General Health Promotion: a. Obtain updated contact information from secondary sources before initiating outreach; b. Continue HEDIS® improvement member incentives. c. Increase follow up calls to encourage appointment attendance. 4) Digital Education Programs: a. Continue promotion of T-X campaign to increase participation; b. Increase text messaging programs to improve reach rates and engagement.	Motion: Approve
#4 C&L/HE Business - Performance Improvement Project Updates (Attachment Y) Action Patrick Marabella, M.D, Chair	Quality Improvement Initiative activity summaries were presented for three of the CalViva Health projects in progress in 2018 including two Performance Improvement Projects (PIPs) and one PDSA. Project updates covered: - Childhood Immunizations (CIS-3) Performance Improvement Project - Postpartum Visit Disparities Performance Improvement Project - Annual Monitoring for Patients on Persistent Medications (PDSA)	Performance Improvement Project Updates (Cardona/Verma) 6-0-0-2
#5 UM Business - Key Indicator Report & TAT Report (Attachment Z) Action Patrick Marabella, M.D, Chair	 Dr. Marabella presented the Key Indicator report through March 2018. Membership and acute admissions have remained consistent. ER utilization has also remained steady. Bed Days PTMPY have increased slightly. This may be related to the EHS transition. Turn Around Time (TAT) Compliance for Preservice Routine authorizations has decreased in February and March due to higher volumes associated with the EHS transition. Actions focused on improvement are in progress. Case Management rates are stabilizing with an increase in engagement and Total Cases Managed in March. 	Motion: Approve Key Indicator Report & TAT Report (Lee/Verma) 6-0-0-2
#5 UM Business - Utilization Management Concurrent Review Report Qtr. 1 (Attachment AA)	The 2018 Utilization Management/Medical Management Concurrent Review Report presents inpatient utilization data and clinical concurrent review activities for Q1 2018. Focus is on improving member healthcare outcomes, minimizing readmission risk and reducing post-acute gaps in care delivery via proactive discharge planning and expeditious linkages to medically necessary health and support services. > The increase in membership has impacted inpatient utilization. Upward trends in the MCE and SPD	Utilization Management Concurrent Review Report Qtr. 1

#5 UM Business - Case Management & TCM Report (Attachment BB) Action Patrick Marabella, M.D, Chair	This report provides a summary of Case Management (Integrated and Perinatal) and Transitional Care Management activities in quarter 1, 2018. The effectiveness of the case management program is based upon: > Readmission rates > ED utilization > Overall health care costs > Member Satisfaction Positive results are noted for these measures in quarter 1. Members enrolled in Perinatal Case Management demonstrated improved compliance with a timely first prenatal visit and timely postpartum visit. Transitional Care Management is focused on a successful transition from acute hospitalization to home with an emphasis on a timely PCP visit post discharge. TCM staff are working closely with Concurrent Review to improve referral rates. The Concurrent Review IRR report provides a summary of routine audit activities performed to evaluate the	Motion: Approve Case Management & TCM Report (Cardona/Ramirez) 6-0-0-2 Motion: Approve
- 2018 Concurrent Review QI IRR Report - Qtr. 1 (Attachment CC) Action Patrick Marabella, M.D, Chair	consistency, accuracy, and timeliness of medical management decisions in order to promote improved member outcomes. Monitoring of the concurrent review process includes the following components: > Turn-around-times (TAT) of medical decisions (within 24 hours of receipt of request) > Documentation of proactive discharge planning and collaboration > Application of standardized criteria (I.e. McKesson InterQual®, and /or evidence-based medical policies and technical assessment tools) All measures met or exceeded the 90% threshold for quarter 1.	2018 Concurrent Review QI IRR Report - Qtr. 1 (Cardona/Ramirez) 6-0-0-2
#6 Pharmacy Business - Executive Summary - Operations Metrics Report - Top 30 Prior Authorizations (Attachment DD - FF) Action Patrick Marabella, M.D,	Pharmacy reports for quarter 1 2018 include Executive Summary, Operation Metrics, and Top Medication Prior Authorization Requests, changes to assess for emerging patterns in authorization requests, compliance around prior authorizations, and consistency of decision making in order to formulate potential process improvements. > Pharmacy prior authorization (PA) metrics were within 5% of standard for first quarter 2018. Effective 7/1/2017, the PA turnaround time requirement changed to 24 hours from 24 hours or 1 business day. > First quarter 2018 top medication PA requests varied minimally from fourth quarter 2017. > The results from first quarter 2018 top 30 medication PA requests varied minimally from fourth quarter 2017.	Motion: Approve Executive Summary Operations Metrics Report Top 30 Prior Authorizations (Cardona/Ramirez) 6-0-0-2

#7 Compliance Update	MB Corrado presented the Compliance report.	
	The Plan received DHCS' Final Report on 2/28/2018 for the 2017 DHCS audit and filed its response to the CAP on 3/30/18. DHCS accepted the CAP and closed it in a 5/8/2018 report. The Final Audit Report and CAP will be posted on the DHCS website and available for public review.	
	DHCS completed its on-site audit of Plan activities on 4/19/18 and completed onsite provider visits the week of 4/23/2018. Preliminary DHCS exit conference comments focused on IHA tracking documentation, Specialty Access in Kings and other counties, and network integrity. We are awaiting the DHCS' formal Preliminary Report findings.	·
	DMHC notified CalViva Health on 4/17/18 that the follow-up survey to the three deficiency findings from the 2016 audit have all been corrected. The Final Report will be posted on the DMHC website and available for public review	
	DHCS issued a Corrective Action Plan to CalViva Health on December 26, 2017 identifying that the volume of encounter data submitted for Kings and Madera counties in 2015 and 2016 had trended down even though enrollment was increasing. Subsequent to the Plan's CAP response to DHCS on January 10, 2018, the DHCS has granted an extension for submitting the 2015-16 data in question until 5/30/18.	
	The next Public Policy Committee meeting is scheduled for June 13, 2018, 11:30 a.m. in Kings County.	
	A final enforcement action was received from DMHC regarding the Timely Access filing for 2014 data that was submitted in 2015. The final result is a \$2500 sanction primarily for technical violations regarding certain data that was not submitted correctly on the first submission.	
	Coalinga Regional Hospital announced the closure of their facility effective June 15, 2018.	
	A detailed Executive Summary was reported to the Committee regarding the 2017 Oversight Audits of Health Net Community Solutions, and their sub-contracted arrangements.	
#7 Old Business	None.	:

RE: Review of Goals and Objectives for Fiscal Year End 2018

BL #: BL 18-007

Agenda Item 5 Attachment 5.A

DISCUSSION:

Category: Goal:

Market Share	Maintain current market share.	Increased Market Share to 71%.
Medical Management / Quality Improvement	Initiate and complete Improvement Plans for 2017 HEDIS measures below the Minimum Performance Level (MPL) and meet the requirements by DHCS for two Performance Improvement Plans including one for health Disparity.	Completed Improvements Plans for 3 measures below MPL in Madera County. Designed two Performance Improvement Projects in Fresno county and successfully submitted the 4 modules required for each. The Disparity project focuses on PostPartum care and the other on childhood Immunizations.
Funding of Community Support Program	Administer the Community Investment Funding Program.	Nine (9) grants were awarded, resulting in four (4) grant payments for recruited providers.
Tangible Net Equity (TNE)	Maintain DMHC TNE requirements to avoid watch status (200% minimum) and achieve 400% of minimum TNE requirement as the goal for 2018.	Achieved 448% of the minimum DMHC required TNE as of June 30, 2018.
Direct Contracting	Maintain current direct contracts to align with TNE requirements.	Maintained direct contracts with three (3) FQHCs.
Community Outreach	Participate in local community initiatives.	Participated in Pre-term Birth (PTBi), Vision Program (See2Succeed), Cradle to Career, and 30+ CBO sponsorships.
State and Federal Advocacy	Continue to advocate Local Initiative Plan interest.	LHPC Board membership and local legislative advocacy have influenced several State Senate and Assembly Bills.
Administrative and Clinical Data Reporting	Complete Improvement Plans for HEDIS® measures scoring below Minimum Performance Level and two required Performance Improvement Plans (PIPs) per DHCS.	Completed Improvements Plans for 3 measures below MPL in Madera County. Designed two Performance Improvement Project in Fresno county and successfully submitted the 4 modules required for each. The Disparity project focused on PostPartum care and the other on childhood Immunizations.
Executive Staffing Changes	Implement executive staffing changes.	CFO and COO have transitioned as planned.

RE: CalViva Health Community Support Program

BL #: BL 18-009

Agenda Item 7 Attachment 7.A

In May 2017, the Fresno-Kings-Madera Regional Health Authority established a process to review and consider funding for Community Support programs/initiatives in excess of twenty thousand dollars (\$20,000) per fiscal year. Guidelines and an application were established and approved during this time.

As a reminder, the Commission approved total funds for the current fiscal year of \$1,000,000. These funds are intended for training, physician and extender recruitment assistance. It is our recommendation that these funds would be used for the recruitment of 7 new PCPs or Extenders, as well as funding for training programs. This target is based on a funding plan guide that allocates \$100,000 per recruited physician or \$75,000 per recruited extender (incremental payments will be delivered upon contract signing and credentialing). The main goal of this grant opportunity is to increase the total number of primary care providers in our network.

The Ad-hoc committee reviewed the funding recommendations (attachment A) on August 13, 2018 and voted to bring them to the full commission.

Grant Recommendations

Location/Project	Amount	Position	Alternative Position	Amount

Item #9 Attachment 9.A

2018 Mid-Year Quality Improvement Work Plan Evaluation – <u>Executive Summary</u>

REPORT SUMMARY TO COMMITTEE

TO: CalViva Health QI/UM Committee

FROM: Rocio T. Cortez /Ruth Eiermann, Quality Improvement

COMMITTEE DATE: September 20, 2018

SUBJECT: Executive Summary for CalViva Health 2018 Quality Improvement Mid-

Year Evaluation

Summary:

CalViva Health's 2018 Quality Improvement (QI) Program monitors improvement in clinical care and service using a range of indicators. These key performance indicators are found in service, clinical, and utilization reports from QI and various other departments. Based on these reports, areas of improvement are identified, and interventions are implemented and monitored. In 2018, quality improvement initiatives are focused on (but not limited to) improving preventative care, disease management outcomes, continuity and coordination of patient care, patient safety metrics, and member access to care.

Purpose of Activity:

The QI Work Plan Mid-Year Evaluation Executive Summary provides a summary of the overall effectiveness of the QI activities and processes, and identifies barriers and opportunities for improvement.

Work Plan Initiatives:

Details are included in the full 2018 QI Work Plan Mid-Year Evaluation. Key areas of focus include:

1. Access, Availability, and Service:

Improve Access to Care: CalViva continues to monitor appointment access at the provider level through the annual Provider Appointment Availability Survey (PAAS). Surveys are being conducted by Sutherland Global beginning in August 2018. Provider Updates for MY2017 Appoint Access and After-Hours Survey Results are scheduled to go out August 2, 2018. MY2018 PAAS and After-Hours Survey Prep distributed June 14. P&P PV-100 Accessibility of Providers and Practitioners Red-line edits were reviewed at July Access Workgroup meeting.

MY2018 PAHAS Survey: After-Hours survey being conducted by SPH Analytics beginning in September 2018. MY2017 Corrective Action Plan packets will be distributed to non-compliant providers in August 2018.

Improve Member Satisfaction: Review of Patient Experience Toolkit: A major overhaul of this piece to take place in 2019. For this year, a "Patient Experience Tips and Guidelines" brochure was developed highlighting key areas: Patient Access, Access Standards, After-Hours Access, etc. and will be distributed to non-compliant providers in September 2018.

2. Quality and Safety of Care:

Improvement Projects

County	Measure Name	MPL Results
Madera	Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis (AAB)	Current Measure is at 24.58% just below MPL of 24.91%.
Madera	Annual Monitoring for Patients on Persistent Medications (MPM)	ACE/ARB is currently just below MPL of (85.18%) at 84.74% and Diuretics was also below MPL (85.18%) at 84.88%.
Madera	Use of Imaging Studied for Low Back Pain (LBP)	Results for this measure were above MPL (66.23%) at 75.64%.

Performance Improvement Projects (PIPs):

Postpartum Care:

In Q1 CalViva Health established a multi-disciplinary Postpartum (PPC) Performance Improvement Team in collaboration with a high volume, low compliance clinic with an identified disparity in Fresno County. The PPC PIP team completed a detailed Process Map depicting the steps, from a member perspective, to scheduling and completing a postpartum care visit at the designated clinic. A Failure Modes and Effects Analysis, (FMEA), was also completed with the clinic staff in order to prioritize gaps in processes and identify potential interventions. Using the Process Map and FMEA the clinic staff, providers and CalViva Health team developed interventions to address the highest priority gaps identified in the FMEA.

The team implemented the first intervention, a color-coded, electronic medical record (EMR) Alert, after staff training. The Alert is created by the Medical Assistant for pregnant women at 35 weeks gestation and is visible to clerical and clinical staff who schedule postpartum visits. The Alert reminds staff of the 21-56-day timeframe for postpartum visit completion. Compliance data will be collected.

A second intervention will include modification of a pre-natal documentation (ACOG form) to include questions regarding customs, traditions, and cultural beliefs that may impact health care decisions around postpartum care. Education on cultural diversity will be provided to clinic staff along with the new ACOG form. This will be an opportunity for the clinic staff to gain insight into the cultural beliefs of their patients and ultimately improve the postpartum visit rates in Fresno County.

Childhood Immunizations Status-Combination-3:

In Q1 and Q2, CalViva Health established a multi-disciplinary Childhood Immunization (CIS-3), Performance Improvement Team in collaboration with two high volume, low compliance clinics in Fresno County and completed process mapping activities aimed at improving childhood immunization rates. A Failure Modes Effects Analysis (FMEA) was also completed with the clinic staff, to prioritize gaps in processes and identify potential interventions.

Using the process map and FMEA tool the clinic staff, providers and the CalViva Health team established the first intervention to address the highest priority gap identified. These activities completed Module 3.

The team implemented the first intervention of eliminating the double-booking option from provider scheduling templates (Monday through Friday) until the start of the work day. This is anticipated to allow space for patients to schedule same-day appointments for their needed immunizations. The clinics are also accommodating walk-in patients with designated "Walk-in Only Clinics" on Saturdays. It is estimated that more people will use the walk-in and "fast track" option over scheduling an appointment. Data will be gathered to evaluate outcomes.

A second intervention is in development and will be member based.

Item #10 Attachment 10.A

2018 Mid-Year Utilization Management Work Plan Evaluation – <u>Executive Summary</u>

EXECUTIVE SUMMARY REPORT TO COMMITTEE

TO: CalViva Health QI/UM Committee

FROM: Jennifer Lloyd, Vice President Medical Management

Barbara Swartos, Vice President Medical Management

COMMITTEE September 20, 2018

DATE:

SUBJECT: 2018 CalViva Work Plan Mid-Year Evaluation for Utilization Management/Case Management

Executive Summary

Summary:

All activities are currently on target for this mid-year evaluation with the exception of the following metric listed below. This metric is indicated as Too soon To Tell for the mid-year evaluation reporting.

 5.2 Provide UM/CM Programs to support Seniors and Persons with Disabilities (SPD) mandatory managed care requirements

Utilization Management (UM) processes have been consistent and evaluation/monitoring of UM metrics continue to be a priority. Both Case Management and Disease Management continue to monitor the effectiveness of programs in order to better serve our members.

Purpose of Activity:

CalViva Health has delegated responsibilities for utilization management and case management (UM/CM) activities to Health Net Community Solutions. CalViva Health's UM/CM activities are handled by qualified staff in Health Net's State Health Program (SHP) division.

The Utilization and Case Management Program is designed for all CalViva Health members to receive quality, medically necessary health care services, delivered at the appropriate level of care in a timely and effective manner. CalViva Medical Management staff maintains clinical oversight of services provided through review/discussion of routine reports and regular oversight audits.

The Mid Year Evaluation of the UMCM Work Plan encompasses a review of medical management activities through the documentation of current and future strategic initiatives and goals. The Work Plan tracks key performance metrics, regulatory compliance, provides for an assessment of our progress and identifies critical barriers.

This plan requires involvement from many areas such as Appeals & Grievances, Compliance, Information Technology, Medical Informatics, Member Services, Pharmacy, Provider Oversight, Provider Network Management, Provider Operations, Quality Improvement and Medical Management.

Analysis/Findings/Outcomes:

I. Compliance with Regulatory & Accreditation Requirements

All Compliance activities are currently on target for this mid-year evaluation. No barriers have been identified.

II. Monitoring the Utilization Management Process

All UM Process Monitoring activities are currently on target for this mid-year evaluation.

a. **Timeliness of processing the authorization request** (Work plan element 2.2)

Turnaround Time (TAT) for processing authorization requests within regulatory timeframes had an overall score that averaged 95.65% for January – June 2018 with a goal of 100%. It was identified in Q1 that providers were using an incorrect authorization form which caused requests to be misrouted and not meet TAT. The issue with providers using the incorrect authorization form was resolved in April 2018 with provider communication and education and is no longer adversely impacting TAT. There are currently no known issues adversely impacting TAT. A formal CAP for TAT is in place that is reported on the 10th of every month.

b. **UM Appeal determinations** (Work plan element 2.4)

There were a total of 290 appeal cases January – June 2018 and the compliance turnaround time for appeals was 97.59%.

III. Monitoring Utilization Metrics

All UM Metric Monitoring activities are currently on target for this mid-year evaluation.

a. **Acute in-patient performance** (Work plan element 3.1)

Utilization goals for 2018 have been re-stated based on Acute Inpatient performance over the past 3 years. The Utilization team will continue to monitor, track and trend inpatient utilization in general and ED utilization in particular for opportunities to impact admissions and improve overall care.

Increase in TANF utilization was noted in first quarter 2018. The increase in admissions seems to correlate to an overall increase in homelessness and substance abuse based on the top ten admission diagnoses for 2017/18 with an accompanying increase in ED utilization as well.

ED visits for Influenza increased in occurrence advancing to the top eight diagnoses for ED visits for 2018 where it had not been in the Top Ten ED Diagnosis in previous years.

Admissions and bed days also increased in response to this unusual flu season.

Bed Days/K	2018 Goal	Jan-Jun 18 Actual
MCE	335.0	349.8
SPD	980.0	943.1
TANF	102.4	110.9

ALOS	2018 Goal	Jan-Jun 18 Actual
MCE	5.1	5.2
SPD	5.0	5.5
TANF	3.8	3.8

Admit/K	2018 Goal	Jan-Jun 18 Actual
MCE	65.0	67.9
SPD	177	170.1
TANF	27.1	29.2

% Re-admit	2018 Goal	Jan-Jun 18 Actual
MCE	13.0	13.6
SPD	21.0	21.4
TANF	8.0	8.1

b. **Over/Under Utilization** (Work plan element 3.2)

CVH PPG specific dashboard reports including Bed Days/K, Admits/K, and ALOS were developed and are produced and reviewed quarterly. The reports are being revised to include ER Visits/K, and 30-day all-cause readmission rates.

IV. Monitoring Coordination with Other Programs and Vendor Oversight

All Coordination with Other Programs and Vendor Oversight activities are currently on target for this midyear evaluation.

a. **Integrated Case Management** (ICM) (Provides services along the continuum of care including critical and complex acuity) (Work plan element 4.1)

Outcome measures monitored quarterly include: readmission rates, ED utilization, overall health care costs & member satisfaction. Results for Q1 demonstrated decrease in readmission rates and ED utilization, inpatient health care cost decrease, slight decrease in outpatient and increase in pharmacy as expected. Small volume of member satisfaction surveys were competed; responses overall positive. Teams are re-evaluating outreach process to complete surveys in effort to increase completion volume.

Referrals to CM based on completed Health Information Forms (HIFs) was implemented in Q1. In January 2018 CalViva Health new member mailings included the 2017 HIF form. 2018 HIF was included in the New Member Welcome Packet in February.

Palliative care program monitoring was initiated in Q1 and monitoring continues.

Transitional Care Management (TCM) referral metrics are monitored separately as of June.

b. **Perinatal Case Management** (PCM) (Work plan element 4.2)

Referrals increased from 169 in Q1 to 217 in Q2. Through Q2, 120 members managed in PCM program, exceeding 2017 volume.

Hard copy program materials have been branded and approved; distribution is pending approval of program text messaging content by DHCS.

c. **Disease Management** (DM) (Work plan element 4.3)

Plans to insource the DM program are continuing. The Statement of Work with CalViva Health required rewording due to new privacy requirements and is in approval phase. Regulatory approval is required. The program will include notification material to providers upon member enrollment and will include care coordination between DM and CM.

d. **Behavioral Health Performance Measures** (Work plan element 4.6)

- Provider Appointment Availability Survey (PAAS): Q1 appointment access standards were met.
- Timeliness: Prior authorizations for autism and single case agreements in Q1 were all compliant with timeliness standards.
- PQI: no PQI's in Q1.
- Provider disputes: Out of 7 provider disputes in Q1 all were resolved timely.
- Network Availability and Adequacy: All availability and adequacy metrics met standard in Q1
- Timeliness to first appointment for members diagnosed with Autism Spectrum Disorder: Survey will be administered August through December 2018. Due to low response rate in 2017, provider

outreach was completed and overall results confirmed appointment availability and capacity for additional clients.

• Behavioral Health Complex Case Management was initiated through the HN CM department beginning late in Q2.

V. Monitoring Activities for Special Populations

All Monitoring Activities for Special Populations are currently on target for this mid-year evaluation with the exception of work plan element "5.2 Provide UM/CM Programs to support Seniors and Persons with Disabilities (SPD) mandatory managed care requirements" which is indicated as Too soon To Tell for the mid-year evaluation reporting.

a. **Monitoring of CCS identification rate** (Work plan element 5.1)

Teams are continuing current CCS policies and procedures including identification and referral of cases through identified resources. A work group has been assigned to assess opportunities to improve internal processes for CCS including early identification, referrals and collaboration with providers.

b. **UM/CM Programs to support SPD mandatory managed care requirements** (Work plan element 5.2)

Member stratification is being conducted monthly using Impact Pro to identify members for ICM. 105 SPD members have been managed 2018 through Q2.

Health Risk Assessment (HRA) completion is not meeting expectations as Health Net IT migration prevented data exchange. Root cause analysis and detailed action plan are in place. The vendor implemented hiring and retention strategies to meet call requirements.

Next Steps:

CalViva Health continues to increase its presence in the Central Valley community by establishing a comprehensive Medical Management team (Medical Hub) in the local CalViva Health office. The Medical Hub consists of staff responsible for prior authorization, post service review, onsite and telephonic concurrent review teams and a Regional Medical Director to oversee these teams and collaborate with directly contracted physicians and other providers of medical services. The Medical Hub will serve to further heighten collaboration and build relationships with providers of community resources in order to address Social Determinates of Health and provide comprehensive, whole person care for our members.

Continuing progress towards completion of all activities. Ongoing monitoring of interventions will be essential for all areas to ensure appropriate actions are being taken to meet goals.

DHCS Administrative/Operational filings include ad-hoc reports, policies & procedures, Commission changes, Plan and Program documents, etc. **DHCS Member & Provider materials** include advertising, health education materials, flyers, letter templates, promotional items, etc.

DMHC Filings include ad-hoc reports, Plan and Program documents, policies & procedures, advertising, bylaw changes, Commission changes, undertakings, etc.

Fraud, Waste, & Abuse Activity	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	2018 Total
# of MC609 FWA Submissions to DHCS	0	0	0	0	0	0	0	1					1
# of Cases Open for Investigation (Active Number)		42	37		24		16	17					

Potential Fraud, Waste & Abuse cases

CalViva Health is required to investigate and submit potential fraud, waste and abuse cases to DHCS and other regulatory agencies as applicable. CalViva Health receives potential cases of suspected fraud from internal and external sources. Many cases which are open for investigation are triggered by the use of automated and/or manual data mining activities. "Open" cases are under active investigation and may or may not arise to the level of suspected potential fraud. The number reported above may be reduced as cases are closed and/or if an MC 609 Submissions are warranted. The number may increase as new cases are identified for investigation. If the case rises to the level of suspected potential fraud, CalViva Health reports the case to DHCS via an MC 609 form within 10 working days from the date the suspected potential fraud is identified.

Compliance Oversight & Monitoring Activities	Description
	Health Net CalViva Health's management team continues to review monthly/quarterly reports of clinical and administrative performance indicators, participate in joint work group meetings and discuss any issues or questions during the monthly oversight meetings with Health Net. CalViva Health and Health Net also hold additional joint meetings to review and discuss activities related other to critical projects or transitions that may affect CalViva Health. CalViva Health continues to review ongoing updates on Health Net's efforts to improve specialty provider access for CalViva Health members.
CalViva Health Oversight Activities	Kaiser All remaining CalViva Health members assigned as Kaiser Continuity of Care (COC) Capitation members were transitioned back to CalViva Health effective September 1, 2018. Any COC requests to continue care after/starting September 1, 2018 will be reviewed following the Plan's "regular" COC rules. If COC requests from former Kaiser assigned members are approved, the member will remain assigned to CVH and not be capitated to Kaiser. Approval will be for a specific condition/ service and payments to Kaiser would be made on a Fee-for-Service basis.
	There are some activities, such as required regulatory reports, encounter data submissions, HEDIS data and other financial reporting related to Kaiser that will continue into 2019 and possibly 2020.
Oversight Audits	The following 2018 annual audits have completed: Utilization Management, Privacy & Security, and Cultural & Linguistics. None of these required CAPs. The following audits are in progress: Call Center, Credentialing Provider Network, and Q 2018 Provider Disputes,
Regulatory Reviews/Audits	Status
Department of Managed Health Care ("DMHC") Undertaking Reports – Termination of contract with Kaiser	As of 9/1/18, all previously assigned Kaiser-CalViva members were transitioned back to CalViva. In total, > 8,000 members were transitioned between 9/1/17 and 9/1/18. As was required by the 9/20/17 DMHC Undertakings requirements, the Plan submitted the "180-Day Amendment" on 8/30/18. Most of the information in this filing related to the Plan's network adequacy. The next required (and final filing) will be the "12-Month Report" scheduled for 9/20/18 and will focus on any grievances related to access to care and continuity of care (COC). Overall, the termination of the Kaiser contract and its associated member transition-related activities proceeded without significant disruptions to members' care.
Department of Health Care Services ("DHCS") 2018 Medical Audit	DHCS completed its on-site audit of Plan activities on 4/19/18 and completed onsite provider visits the week of 4/23/2018. We are awaiting the DHCS' formal Preliminary Report findings.
Department of Health Care Services ("DHCS") Encounter Data Corrective Action Plan	DHCS issued a Corrective Action Plan (CAP) to CalViva Health on December 26, 2017 identifying that the volume of encounter data submitted for Kings and Madera counties in 2015 and 2016 had trended down even though enrollment was increasing. The Plan has weekly CAP meetings with Health Net and continues to work with Health Net to address the issues and submit the outstanding encounter data. DHCS has granted another extension for submitting the 2015-16 data in

RHA Commission Compliance – Regulatory Report

	question until 12/31/18. The Plan is now having monthly meetings with DHCS to discuss progress in meeting the CAP by 12/31/18.
Department of Managed Health Care 2019 Medical Survey	The Plan has been verbally notified by DMHC that the 3-year full medical survey has been scheduled for 2019. The survey will consist of a pre-audit review of documentation and onsite interviews, file audits and document review during the week of February 25, 2019. Written notification will be sent to the Plan by the end of the month.
New Regulation / Contractual Requirements	
Medicaid and Children's Health Insurance Program (CHIP) Programs; Medicaid Managed	Both DMHC and DHCS have approved the Plan's EOC/Model Handbook. The EOC mailing of English, Spanish and Hmong versions was completed in July.
Care, CHIP Delivered in Managed Care, "Final Rule"	DHCS submitted the Final Rule contract amendment for managed care plans to CMS and it is still under review.
BHT Transition	In accordance with DHCS APL 18-006, effective July 1, 2018, MCPs became responsible for BHT treatment coverage for members under the age of 21 regardless of diagnosis under the EPSDT benefit when medically necessary. On August 7, 2018, CalViva Health received its latest DHCS file containing a list of 10 members to be transitioned to the Plan by 11/1/18. At this time, the Plan does not anticipate any additional members needing to be transitioned from the Central Valley Regional Center.
Committee Report	
Public Policy Committee	The Public Policy Committee met on September 5, 2018. The Committee reviewed the Enrollment Dashboard, the Health Education Member Incentives Program, Appeals & Grievances Report, and the Post-Partum Care Disparity Project update. There were no recommendations or action items requiring the response of the Commission.
	The next Public Policy Committee meeting is scheduled for December 5, 2018, 11:30 a.m. in Fresno County, at 7625 N. Palm Ave. Suite 109. Fresno, CA 93711.

QIUM Quarterly Summary Report

REPORT SUMMARY TO COMMITTEE

TO: Fresno-Kings-Madera Regional Health Authority Commissioners

FROM: Patrick C. Marabella, MD

Amy R. Schneider, RN

COMMITTEE

DATE: September 20th, 2018

SUBJECT: CalViva Health QI & UM Update of Activities in Quarter 3 2018 (September 2018)

Purpose of Activity:

This report is to provide the RHA Commission with an update on the CalViva Health QI & UM performance, program and regulatory activities in Quarter 3 of 2018.

I. Meetings

One QI/UM Committee meeting has been held to date in Quarter 3, on July 19th, 2018. The following general documents were approved at the July meeting:

- 1. Medical Policies Q1
- 2. Performance Improvement Project Updates for Low Back Pain and Avoidance of Antibiotics in Adults with Bronchitis.
- 3. Pharmacy Annual Policy Review Grid & select policies.
- 4. Pharmacy Formulary (July, Full & Condensed)

The following is a summary of some, but not all, of the reports and topics reviewed:

- Quality Improvement Reports The quality and safety of many of the health plan functions are assessed and
 monitored through quality improvement reports. These reports cover health plan performance, programmatic
 documents and regulatory reports. During this reporting period the QI/UM Committee's review included, but
 was not limited to:
 - 1. The Appeal and Grievance Dashboard through May 2018 tracks volumes, turn-around times, and case classifications. Results demonstrate good compliance with opportunity for continued improvement in some areas. Transportation related grievances are now tracked on the Dashboard in the Quality of Service, Exempt, and Appeal categories. Total number of Appeals Received/Resolved has demonstrated an increasing trend throughout the year so far. The increase is noted primarily in the "Other" category related to advanced imaging and allergy treatment requests. It is anticipated that provider education will reduce these numbers over time.
 - 2. The Facility Site & Medical Record & PARS Review Report displays completed activity and results of the DHCS required PCP Facility Site and Medical Record Reviews for CalViva Health in all counties. These site visits and record reviews evaluate provider compliance with standards of care and safe practices. The Physical Accessibility Review Survey (PARS) is an assessment of office/clinic access for members with disabilities. Access level is designated as Basic or Limited according to the results of an evaluation of 89 criteria. There were 15 Facility Site Reviews and 12 Medical Record Reviews completed in the 3rd and 4th Quarters of 2017. The overall mean Facility score for Fresno, Kings and Madera Counties was 98% for the 3rd and 4th Quarters of 2017.
 - 3. The MHN Performance Indicator Report provides written record of 18 performance indicator metrics covering access, authorization decision timeliness, potential quality issues and network availability and adequacy. All 18 metrics met or exceeded their targets.
 - 4. **Public Programs Report** for Q1. This report provides a summary of the relevant Public Health, Behavioral Health (BH) and Regional Center Activities, initiatives and updates for the three-county area.

Page 1 of 3 09/14/2018

Highlights for this quarter include implementation of the Drug Medical Organized Delivery System (ODS) Waiver Program for Behavioral Health. Various preventive health screenings and services. Treatment and prevention of sexually transmitted infections. Key metrics are reported.

- 5. **Other QI Reports** reviewed and approved include: Provider Preventable Conditions, PM160 Reporting and the Health Education Incentive Programs report.
- **UMCM Reports** Utilization and Case Management activities are monitored in an ongoing manner through a variety of performance, programmatic and regulatory reports. At the July meeting the UMCM related reports included but were not limited to the following:
 - 1. **The Key Indicator Report (KIR)** provided data as of April 2018. This report includes key metrics for tracking utilization and case management activities.
 - Membership has remained consistent.
 - Admits remain comparable to previous months.
 - ER utilization has also remained steady after increase in January.
 - Bed Days PTMPY have increased slightly especially in the TANF category. This may be related to the EHS transition causing system disruptions.
 - Turn-around Time (TAT) Compliance has several metrics below goal of 100%, but above 90%. EHS transition resulted in providers sending the wrong prior authorization form impacting case prioritization and ultimately turn-around compliance rates. This has been addressed.
 - CCS and OB rates remain consistent.
 - 2. **Specialty Referral Reports** provide a summary of Specialty Referral Services that require prior authorization in the tri-county area for Adventist, First Choice, IMG and La Salle. These reports provide evidence of the tracking process in place to ensure appropriate access to specialty care for CalViva Health members. Results are trended over time.
 - 3. The Top 10 Diagnosis Report is prepared annually in order to provide the opportunity to track and monitor the volume of admissions per 1000 (AD/K), bed days per thousand (BD/K) and average length of stay (ALOS) of the top 10 diagnoses for acute hospital stays among the TANF, SPD and MCE populations. The report uses the principal diagnoses recorded at discharge. The majority of the top ten diagnoses identified in the 2018 report are consistent with stratification triggers used by our integrated care teams consisting of Concurrent Review, Public Programs and Integrated Case Management to identify and target high risk members.
 - 4. Other report reviewed was the Standing Referrals report.

II. HEDIS® Activity

HEDIS® performance measures are used to assess the quality of care provided to health plan members. Managed Care Plans are required by contract to annually report performance measurement results to DHCS/HSAG. Final RY18 results became available during Q3 and analysis initiated. The Medical Management Team met with DHCS leadership to discuss areas requiring improvement. Rapid cycle improvement (PDSA) Projects have been evaluated as RY2018 HEDIS® compliance rates have become available. Measures not meeting the MPL will continue into 2019 and any new projects initiated as per these results.

During Quarter 3 2018 CalViva also continued to move forward with the two Performance Improvement Projects (PIPs) selected, Childhood Immunizations and Postpartum Visits. Module 3, which includes Process Mapping, Failure Modes Effects Analysis (FMEA) and intervention prioritization was completed and approved by HSAG and DHCS. Bi-weekly, Improvement Team meetings have continued for the two targeted clinics. Initial interventions were identified and detailed implementation plans established for each project constituting the majority of the Module 4 documentation. Module 4 has been submitted and approved for each project. Monitoring of interventions and development of subsequent interventions is in progress.

III. Kaiser Reports

Quarter 2 2018 reports have been received to date with the following findings:

- 1. Grievance Reports 2nd Quarter--DHCS Report, CBAS-the All Member-no significant issues
- 2. Transportation Reports -Monthly reports received, no significant issues
- 3. Utilization Management 2nd Quarter UM & DME, Out of Network, CBAS, Dental Anesthesia no significant findings
- 4. Palliative Care Q2 no significant issues

Page 2 of 3 09/14/2018

- 5. Mental Health Services 2nd Quarter –Mental Health COC Report, Mental Health Referral, Grievance, BHT Report-no significant issues.
- 6. CBAS Services and Assessment –2nd Quarter no significant issues
- 7. Overall Volumes and Call Center Report 2nd Quarter no significant issues

IV. Findings/Outcomes

Reports covering all pertinent areas have been reviewed and evaluated according to the established schedule to facilitate the ongoing monitoring of the quality and safety of care provided to CalViva members. No significant compliance issues have been identified. Oversight and monitoring processes will continue.

Credentialing Sub-Committee
Quarterly Report

REPORT SUMMARY TO COMMITTEE

TO: Fresno-Kings-Madera Regional Health Authority Commissioners

CalViva Health QI/UM Committee

FROM: Patrick C. Marabella, MD

Amy R. Schneider, RN

COMMITTEE September 20th, 2018

DATE:

SUBJECT: CalViva Health Credentialing Sub-Committee Report of Activities in Quarter 3 2018

Purpose of Activity:

This report is to provide the QI/UM Committee and RHA Commission with a summary of the 3rd Quarter 2018 CalViva Health Credentialing Sub-Committee activities.

The Credentialing Sub-Committee met on July 19th, 2018. At the July meeting, routine I. credentialing and recredentialing reports were reviewed for both delegated and nondelegated services. Reports covering the first quarter for 2018 were reviewed for delegated entities and the second quarter 2018 report was reviewed for Health Net. A summary of the first quarter data is included in the table below.

II. Table 1. First Quarter 2018 Credentialing/Recredentialing

	Sante	ChildNet	MHN	Health	La	ASH	VSP	Envolve	IMG	Adventist	Totals

III. The Quarter 2 2018 Credentialing report was reviewed with one case of denied network reentry. Other County-specific Credentialing Sub-Committee reports were reviewed and approved. No significant cases were identified on these reports.

Item #11 Attachment 11.H

Peer Review Sub-Committee Quarterly Report

REPORT SUMMARY TO COMMITTEE

TO: Fresno-Kings-Madera Regional Health Authority Commissioners

CalViva Health QI/UM Committee

Patrick C. Marabella, MD FROM:

Amy R. Schneider, RN

COMMITTEE September 20th, 2018

DATE:

SUBJECT: CalViva Health Peer Review Sub-Committee Report of Activities in Quarter 3 2018

Purpose of Activity:

This report is to provide the QI/UM Committee and RHA Commission with a summary of the CalViva Health Peer Review Sub-Committee activities. All Peer Review information is confidential and protected by law under the Knox Keene Health Care Services Plan Act of 1975, Section 1370 which prohibits disclosure to any parties outside the peer review process.

- I. The Peer Review Sub-Committee met on July 19th, 2018. The county-specific Peer Review Sub-Committee Summary Reports for Quarter 2 2018 were reviewed for approval. There were no significant cases to report.
- II. The Quarter 2, 2018 Peer Count Report was presented at the meeting with the following outcomes:
 - There were four cases closed and cleared. There were no cases pending closure for Corrective Action Plan. There were four cases pended for further information.
- III. Follow up will be initiated to obtain additional information for tabled cases and ongoing monitoring and reporting will continue.
